NOTICE TO THE EXAMINER

It should be noted that the FIGS. 4-6 filed with this divisional application have been amended from the parent for clarity in accordance with 1241 Off. Gaz. Pat. Office 97 (December 26, 2000). The amendments do not add new matter.

The amendments to FIGS. 4-6 correct the results of an etch of the related art process depicted by the FIGS. Specifically, mask 38 of FIG. 3 covers layers 34 and 36 except at an opening in the middle which exposes the center portion

Serial No.: Not Assigned
Inventor: Brent A. McClure

of cell dielectric 34 and capacitor top plate 36. However, in FIGS. 4-6 as submitted with the parent application, the resulting etch depicts the left and right sides of the cell dielectric 34 and the capacitor top plate 36 etched. This apparent error is not carried through on the embodiment of the invention depicted in FIGS. 11-14, for example. Thus the error has no bearing on the present invention nor the understanding of the invention by one of ordinary skill in the art. The correction does not add new matter.

If there are matters which may be clarified through a telephone call, the Examiner is cordially invited to call the undersigned.

Respectfully submitted,
